To Whom It May Concern,

I have over two decades working strategic design and marketing for corporations, government, defense and more, I found myself in the restaurant business, owning and operating a restaurant just outside of Washington DC, and one in Melbourne Florida. What do I want to do next? Put my passion and experience back to work consulting executives on their communications strategy.

A few of the companies I have worked with:

Airports Council International, American Chemical Society,  
American Nurses Association, American Society of Mechanical Engineers,  
American Society of Microbiology, BAE Systems, Booze Allen Hamilton,  
Chemonics, Boeing Government Operations, Chlorine Council, Danone,  
General Dynamics Corporation, Information Security Oversight Office,  
International Association of Firefighters, Inova Health, Iridium Communications,  
Lockheed Martin, National Archives, National Broadcasting Association,  
National Governors Association, National Food Brokers Association,  
National Wildlife Federation, Optical Society of America,  
Science Applications International Corporation, Shell,  
Treasury Management Association, Pharma, US Department of Energy

Corporate strategy is my passion and I believe I can help with your corporate image and brand identity. So if you need someone to dig in, see what's working (and what's not), and challenge the status quo, let's talk.

Best regards
